PROFESSIONAL SUMMARY

Adaptable and motivated BCA graduate skilled in Python, Machine Learning, Web Development, and Data Analysis. Experienced in building real-world projects such as salary prediction systems, AI-based weather forecasting, and smart crop recommendation tools. Completed industry-recognized certifications from IBM and Google. Seeking opportunities across Machine Learning, Data Analytics, Python Development, and Software Development roles.

EDUCATION

PES College of Science, Arts and Commerce[2022-23 to 2024-25]

Bachelors of Computer Application

- Strong Foundation Java, JavaScript, PHP and in other programming language.
- Hand-on experience in Data Analysis, Data Visualization, Databases and SQL for Data Science with Python.
- Proficient in hardware-software integration using various programming language and Tools

SKILLS

- **Programming Language:** Python, Java, JavaScript, PHP, Dart, C.
- **Data/ML:** Pandas, NumPy, Matplotlib, Regression Models
- **Web Development:** HTML, CSS, JavaScript, DBMS
- **Software & Tools:** Jupyter, Git, VS Code, MS Office, Flutter (basic)
- **Other Skills:** Data Analysis, Data Manipulation, Data Import/Export, Data Cleansing, Data Visualization, Data Storytelling, Email Marketing.

PROFESSIONAL EXPERIENCE

Python and machine learning intern at RankBook Mysore

**MYSORE,INDIA
JANUARY 2025**

- Developed an employee salary prediction system using ML algorithms
- Implemented preprocessing, feature engineering, and model evaluation workflows
- Built visual dashboards to analyze trends using Python libraries
- Enhanced problem-solving, debugging, and model optimization skills

CERTIFICATION

Project on Python and Machine Learning

- Developed an innovative project using Python and Machine Learning to solve a real-world problem.
- Implemented data preprocessing, feature engineering, and model selection for accurate predictions.
- Utilized pandas, NumPy for model training and evaluation.
- Integrated visualization tools (Matplotlib, Seaborn) to analyze trends and insights.

IBM Data Science Professional Certificate!

- Gained hands-on experience with Python, SQL, Visualization, EDA, Machine Learning
- Learned data wrangling, dashboards, supervised learning, and analytics tools.

Google Digital Marketing & E-commerce Professional Certificate!

- Acquired hands-on experience in **digital marketing, e-commerce strategy, and campaign management**, including SEO, social media, and email marketing.
- Learned to **measure and analyze marketing performance** using analytics tools to optimize campaigns and present data-driven insights.
- Developed skills in **A/B testing, customer engagement, and e-commerce store management** to enhance online presence and drive customer loyalty.

PROJECTS

Smart Crop Prediction Based on Soil Fertility.

- Built a crop recommendation tool using NPK, pH, humidity, and seasonal data
- Added fertilizer suggestions and early disease alert logic
- Developed UI using HTML, CSS, JavaScript.

Weather Forecasting using AI

- Integrating OpenWeatherMap API + IoT sensor data
- Using ML models to improve accuracy and generate user recommendations based on weather

CORE COMPETENCIES

- Machine Learning • Data Analysis • Regression Models • API Integration • Problem-Solving • Frontend Development • Data Visualization • SQL

Place: Berlin, Germany.

“ JACK OF ALL TRADES MASTER OF NONE, BUT EVERYTIMES BETTER THAN MASTER OF ONE”
